

STATUTORY CORPORATE GOVERNANCE STATEMENT

cf. Section 107 b of the Danish Financial Statements Act - 2019-2020

Introduction

Gabriel Holding A/S (Gabriel) has prepared the statutory statement on corporate governance as per section 107b of the Danish Financial Statements Act covering the period from 1 October 2019 to 30 September 2020. Further information about the company's management structure is contained in this statement on corporate governance being part of the annual report.

The statement includes:

- A description of the management structure
- The element of the internal controls and risk management systems in relation to the financial reporting
- An annual review of the company's position on the Danish Recommendations on Corporate Governance

Management and board committees

Gabriel has a two-tier management structure consisting of the Board of Directors (Board) and Executive Management. The two bodies are separate, and no one serves as a member of both.

The Board participates in determining the company strategy and supervises the performance of the company and ensures adequate management and organisation. Executive Management has the responsibility for the company's daily operations.

Board of Directors

The Board has 6 members, four of whom are elected by shareholders at general meetings and two by employees in Denmark.

The Board's collective profile can be characterised as having possession of broad and international business experience with professional skills including within production, innovation, sales, finances and marketing estimated to cover the Group's needs. The Board regularly assesses the need for any changes in its collective expertise. Board members keep themselves actively advised about Gabriel and the industry in general.

In December 2019 the shareholders re-elected the following members to the Board:

- Jørgen Kjær Jacobsen (chair of the Board since 2010, chair of the Acquisition Committee, member of the Audit Committee and the Governance, Remuneration & Nomination Committee)
- Hans Olesen Damgaard (vice chair and member of the Board since 2015 and chair of the Governance, Remuneration & Nomination Committee, member of the Audit Committee and the Acquisition Committee)
- Søren B. Lauritsen (member of the Board since 2010 and member of the Audit Committee)
- Pernille Fabricius (member of the Board since 2016 and chair of the Audit Committee)

The shareholder elected board members are elected annually at the annual general meeting. At the constituent board meeting following the annual general meeting held in December 2019, the Board reappointed Jørgen Kjær Jacobsen as chairman and Hans Olesen Damgaard as vice-chairman and appointed the board committees.

In addition to the shareholder elected members two employee representatives are on the Board. Election of employee representatives to the Board is a right enjoyed by Danish employees under Denmark's company law. The board members elected by the employees must comprise half the number of board members elected by the general meeting. The board members elected by the employees act under the same terms as the other board members, but under company law they are elected for four years at a time. The terms of office are on a rolling basis to ensure continuity.

- Quinten Xerxes van Dalm (member of the Board since 2014 and member of the Audit Committee – employee representative) – up for re-election in December 2020

In 2018 the employees elected the following member:

- Rikke Lyhne Jensen (member of the Board since 2018 and member of the Audit Committee – employee representative) - up for re-election in 2022

For a further presentation of the board members above, refer to the management commentary section of the annual report.

The chairman of the Board is responsible for conducting an annual review of the Board's performance, addressing the effectiveness of the Board, individual board members contributions and the chairman's performance. The task of preparing the annual self-evaluation of the individual members of the Board and Executive Management is executed by the Governance, Remuneration & Nomination Committee.

During the summer of 2020, an internally facilitated board evaluation process was conducted, covering the Board's and board committees' effectiveness and results.

The results of the assessment were presented to the Board in August 2020 by the chairman. The main conclusions and outcomes of the board evaluation were, that the Board and the board committees through 2019/20 maintains a positive development by the dedication, required key competencies and sparring offered by and among the board and committee members.

The duties and responsibility of the Board

There are rules of procedure for Gabriel's Board. These are reviewed once a year by the Board with a view to updating. The rules of procedure specify inter alia guidelines for the relationship between the Board and the Executive Management, and the duties and responsibilities of the chairman and vice-chairman of the Board.

The Board has established the following committees:

In 2019/20 the Audit Committee held 4 meetings. The attendance rate for the year was 100%.

- review and positions on the recommendations on Corporate Governance

The Board appoints members of Executive Management and determines their remuneration in view of the recommendations from the Governance, Remuneration & Nomination Committee. The Board reviews the performance of the executives.

As of 30 September 2020, Executive Management consisted of 2 members including the chief executive officer:

- Anders Hedegaard Petersen (chief executive officer (CEO))
- Claus Møller (chief commercial officer (CCO))

For a presentation of Executive Management, refer to the management commentary section in the annual report.

Internal control and risk management systems

Gabriel's supreme governing body has general responsibility for the Group's risk management and internal controls in relation to financial reporting, including compliance with relevant legislation and other financial reporting regulations.

The Group's risk management and internal controls are designed to avoid any material misstatements and omissions during the financial reporting process. The Board /Audit Committee and Executive Management regularly

assess risks and internal controls in connection with the Group's activities and any impact on the financial reporting process.

The control environment

Management regularly assesses the organisational structure and staffing of the Group and lays down and approves overall policies, procedures and controls in relation to the financial reporting process, with emphasis on clear reporting policies and segregation of duties.

Risk assessment

When the annual business plan is prepared, the most important business risks are identified, and against this background, management makes an overall risk assessment, including an assessment of the most important risks arising from the financial reporting process. As part of the risk assessment, management considers the risk of fraud and any other improper influence on the financial reporting process annually.

The Group's Risk Management policy strives to eliminate and/or reduce the risks identified based on an assessment of materiality and cost-benefit analyses.

The Board assesses Gabriel's IT security and insurance coverage annually.

The most important risks arising from the financial reporting process are disclosed in the Executive Management's review and notes to the financial statements, to which reference is made.

Control activities

At the board meetings, Executive Management reports on the status of any risk factors attributable to strategy, organisation or major operations. The Group has a detailed internal reporting system comparing monthly reporting with the budget and regularly evaluating performance and the meeting of specific targets through Key Performance Indicators etc. The system provides a high level of transparency with respect to various activities in the company and helps to give management a comprehensive insight into and knowledge of matters which could be important in relation to the full process of presentation of accounts.

Each quarter, the Board is provided with a detailed account of financial performance compared with the budget and prior periods. The reporting also describes and assesses material balance sheet items, cash flows, forecast future activities and earnings and other matters with an impact on operations.

Information

The Board lays down the general requirements for the result and the external financial reporting in accordance with relevant legislation and regulations. The Group also aims constantly to offer adequate, complete and precise information reflecting corporate performance.

The Board emphasises that there must be open communication in the company within the framework for listed companies, and that each individual must know his or her role in the company's internal controls. The Group has chosen to divide operations and internal reporting into both geographically divided business areas, and in independent strategic business units. Both business areas and business units are run as independent profit centres with their own missions, visions, goals, strategies, action plans and budgets. This division ensures a high degree of delegation of expertise, following-up and delegation of responsibilities in the organisation and enables information on relevant matters to be communicated effectively and reliably throughout the system.

Monitoring

Gabriel monitors the functioning of its internal control and risk management system at all Group levels on a regular basis. The scope thereof is determined primarily based on the risk assessment and the effectiveness of controls and procedures.

Weaknesses, control failings or breaches of designated guidelines are reported based on their importance to Executive Management or the Board. The reporting is typically discussed at the next board meeting, at which the Board is informed of actual findings and recommendations on procedural changes etc.

In their long-form audit report to the Board, the auditors appointed by the annual general meeting report any material failings in the Group's internal control systems in relation to the financial reporting process.

The Board follows up on the implementation of any planned optimisation of risk and internal controls in relation to the financial reporting process.

Deviations from Corporate Governance Recommendations

As a company organised under Danish law and with a listing on Nasdaq Copenhagen, the company complies with Danish securities law and it is the company's intent to be guided by the Danish Corporate Governance Recommendations announced by Nasdaq Copenhagen (prepared by the Danish Committee on Corporate Governance). Nasdaq Copenhagen has required Danish companies to report on a "comply-or-explain" basis their compliance with these recommendations. Gabriel complies with all but 6 of the 47 Danish Corporate Governance Recommendations.
