Design Obika Leather+ is discontinued from the collection.

Gabriel has decided to remove design Obika from the collection. From now on, Obika is only offered if stock is available. In case Obika in the wanted color should not be on stock, we recommend choosing other color schemes that are in stock or alternative furniture fabrics from Gabriel's collection.

For some applications, there is a market wish for having artificial leather products that are easy to wipe and that in special areas also tolerate sanitizing with for example alcohol. At the same time, today's requirements for working environment and external environment must be met. Therefore, development of a new artificial leather product, that takes all parameters into consideration, has been initiated. The launch date has not yet been determined.

Best regards,

Gabriel A/S
